

BCS Series

FELLING HEAD

MAVERICK
MATERIAL HANDLING

Functional Features

Maverick Tree Cutter

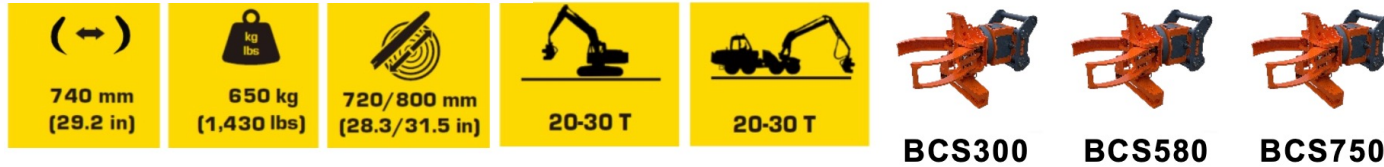

The **BCS Series Cutting Head** is engineered for **tree harvesting** and **branch cutting**, delivering the durability, precision, and efficiency demanded by forestry professionals.

Built with a **robust structural design** and **intelligent operating functions**, the BCS Series is a **reliable, economical, and high-performance solution** for demanding applications. It is capable of **clamping, rotating, lateral displacement, cutting, and more**, providing excellent control and versatility in the field.

Its **latest-generation cutting saw** features a **hidden drive system**, allowing it to work inside **dense and complex tree crowns** while helping protect critical **hydraulic components** from damage.

Every structure has been developed using **FEA analysis and optimization**, resulting in a design that combines **high strength** with **reduced weight** for improved performance and durability.

Maverick BCS Series — Stronger. Smarter. Built for the forest.

Product Model	BCS300	BCS500	BCS600	BCS750
Cutting diameter	300 mm / 11.81 in	500 mm / 19.68 in	600 mm / 23.62 in	750 mm / 29.53
Arm opening	880 mm / 34.64 in	1080 mm / 42.52 in	1180 mm / 46.45	1330 mm / 52.36
Weight	260 kg / 573 lb	380 kg / 838 lb	480 kg / 1050 lb	540 kg / 1190
Pressure	200-250 bar	200-250 bar	280 bar	280 bar
Flow	80-110 L/m – 21.13-29 gal	80-110 L/m - 21.13-29 gal	120-170 L/m – 31.7-44.9 gal	120-170 L/min – 31.7-44.9 gal
Load vehicle	Excavator / Telescopic handler	Excavator / Telescopic handler	Excavator / Telescopic handler	Excavator / Telescopic handler
Optional	Camera	Camera	Camera	Camera

1. Choose the appropriate cutting head according to job requirements
2. The installation method depends on the type of vehicle

MAVERICK reserves the right to make technical changes and improvements

MAVERICK BCS750 Cutting Head takes dense forest harvesting efficiency to the next level. Built for fast, stable performance, it is specially designed for high-reach cutting of tree crowns and branches in demanding environments. With a robust structure and easy maintenance access, the BCS series logging head delivers the durability, precision, and productivity today's operators demand.
